## KEY FEATURES AND TECHNICAL DATA

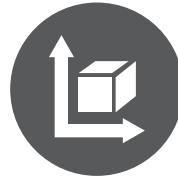

### CONNECTIVITY

GPRS  
GSM

### SENSORS

Motion, 3D  
accelerometer  
ignition

### SIZE

165 grams  
130mm x 60mm x 26mm

### BATTERY

3.7 V, 1300mAh  
Li-Polymer inbuilt  
replaceable backup  
battery

### GPS

SIRF 4 (internal antenna)  
1-3m accuracy

### TEMPERATURE

Operating -20 to +80 °C  
Charging 0 to +45 °C

### INPUT / OUPUT

Rich set of sensors  
including  
immobilizer,  
fuel sensor,  
temperature sensor  
and driver ID

### CLOUD

Real-time tracking  
solution, both  
desktop & mobile  
use supported
